Following the *red thread* of evidence:

guiding optimal decision-making in first-line (1L) chronic lymphocytic leukaemia (CLL)

Saturday 13th June 2026, 10:00–11:30 CEST
31st European Hematology Association Congress 2026

Nobel Hall, Stockholmsmässan, Mässvägen 1, 125 80 Älvsjö, Stockholm, Sweden

Join us for this engaging CLL satellite symposium, supported by Johnson & Johnson, at EHA2026 and hosted by the esteemed Scientific Committee.

Immerse yourself in this interactive symposium and follow the red thread through treatment decision-making in 1L CLL. Evaluate individual patient- and disease-related factors that guide treatment selection and interpret key efficacy and safety data for fixed-duration and continuous treatment approaches in 1L CLL. Together with expert insights and real-world evidence, this symposium will illustrate how optimised treatment decisions can be achieved in everyday clinical practice.

We look forward to welcoming you at the event!

This symposium is organised and sponsored by Johnson & Johnson and is not part of the official EHA scientific programme.

10:00–10:05

Welcome and introduction

Dr Anna Panovská (co-chair)

10:05–10:25

Redefining patient fitness: following the red thread to individualised treatment

Dr José-Ángel Hernández-Rivas, followed by panel discussion

10:25–10:45

Connecting the red threads: CLL17 and the case for fixed-duration vs continuous treatment

Dr Alessandra Tedeschi, followed by panel discussion

10:45–11:15

Interweaving the red threads: interpreting clinical and real-world data for optimal fixed-duration treatment (FDT) decision-making

Prof. Martin Trepel, followed by panel discussion

11:15–11:25

Audience Q&A

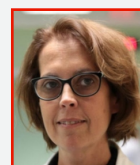

Dr Anna Panovská and Prof. Paolo Sportoletti (co-chairs)

11:25–11:30

Close

Prof. Paolo Sportoletti (co-chair)

Scientific Committee:

Dr Alessandra Tedeschi

Prof. Martin Trepel

Faculty:

Dr Anna Panovská (co-chair)

Prof. Paolo Sportoletti (co-chair)

Dr José-Ángel Hernández-Rivas

The symposium will be broadcast live on the EHA congress website. An on-demand recording will be available for a limited time period, until October 15 2026, reflecting the content as presented live.
